DISTRICT ATHLETIC PASSES

A family pass will be issued to families who are living in the same household in USD 338 District. The family pass is intended to encourage families to attend all athletic events at a reduced cost. List family members when you get pass.

All student passes are good only for Valley Falls students in Grades K-12. College students will be charged adult admission prices.

In order to eliminate unnecessary supervision problems at athletic contests, students in grades K-6 will not be admitted to any athletic event without being accompanied by a paying adult.

Instead of receiving a pass from the school district, everyone purchasing a district pass will have their names written on a list that will be at each gate where tickets are sold.

Please remember that family passes will not be accepted at any tournament event or any Kansas State High School Activities Association post-season athletic contest.

Please list family members who will be on pass
